

Pore Purifying Clay Mask

Deep cleansing and refining treatment for a smooth, polished complexion

PRODUCT FACT SHEET

packaging size (retail)	professional size	trial size	sample available	product pH level	product should last
48g tube	227ml	NA	3ml tube	Neutral pH 6.0-7.0	weekly use: • once: 5-6 months, • twice: 2-3 months, • 2-3 times: 1-1.5 months

Primary Benefits

A multi-benefit purifying facial treatment that effectively detoxifies and exfoliates while also hydrating and soothing to reveal clear, smooth skin that glows.

- Purifies skin by absorbing toxins and reducing sebum and excess oil
- Refines the appearance of pores
- Exfoliates for smooth, glowing skin
- Calms and soothes skin, reducing redness and irritation
- Hydrates and nourishes for healthy-looking skin

Points of Difference

- Features a unique blend of Freshwater Silt, Bentonite Clay and Kaolin Clay to effectively detoxify and purify while also nourishing and soothing skin
- Utilises a Encapsulated Salicylic Acid and naturally derived Galactoarabinan to mildly exfoliate skin over time, even when rinsed off, helping to reduce irritation
- Multiple ingredients help to hydrate and calm for glowing, healthy-looking skin
- Has a neutral pH to promote long-term skin health
- Ideal for use with the Revision Skincare® Professional Mask Protocols

Who Benefits

- Ideal for oily skin to purify and exfoliate
- Great for normal and dry skin for its nourishing, hydrating and soothing properties
- Those looking for a weekly mask to detoxify and purify the skin
- Those looking to refine the appearance of pores
- Those looking for mild exfoliation of the skin with minimal irritation

How To Use

Apply a generous amount to face, avoiding the eye area. Leave on for 15-20 minutes. Remove with warm water. A soft cloth can be used to aid in removal. Pat skin dry. Use twice weekly. Please note, product may stain clothing and towels.

Note: This mask can be removed with Finishing Touch mixed with water if physical exfoliation was not used before applying.
Any excess can also be removed with Soothing Facial Rinse on a cotton pad.

Formulation Information:

FOR ALL SKIN TYPES AND IS:

Formulated without sulphates, phthalates and alcohol

Ingredients

WATER (AQUA), SILT, BENTONITE, KAOLIN, GLYCERIN, LAURYL LACTATE, GALACTOARABINAN, JOJOBA ESTERS, C12-15 ALKYL BENZOATE, GLYCERYL STEARATE, DIMETHICONE, SORBITAN STEARATE, CETEARYL ALCOHOL, PEG-100 STEARATE, CETYL ESTERS, STEARETH-20, AVENA SATIVA (OAT) KERNEL EXTRACT, SALVIA OFFICINALIS (SAGE) LEAF EXTRACT, HYDROXYETHYL ACRYLATE/SODIUM ACRYLOYLDIMETHYLTAURATE COPOLYMER, CAMELLIA OLEIFERA (GREEN TEA) LEAF EXTRACT, MELALEUCA ALTERNIFOLIA (TEA TREE) LEAF OIL, TOCOPHEROL, SALICYLIC ACID, ZEA MAYS (CORN) STARCH, CUCUMIS SATIVUS (CUCUMBER) FRUIT EXTRACT, COCAMIDOPROPYL DIMETHYLAMINE, BUTYLENE GLYCOL, IRON OXIDES, BISABOLOL, HYDROLYZED CORN STARCH, TRIETHOXYCAPRYLYLSILANE, SQUALANE, TETRASODIUM EDTA, XANTHAN GUM, MENTHA ARVENSIS LEAF OIL, PHENOXYETHANOL, POLYSORBATE 60, STEARETH-10, HYDROLYZED CORN STARCH OCTENYLSUCCINATE, CHLORPHENESIN, BENZOIC ACID, SORBIC ACID, HYDRATED SILICA, FRAGRANCE (PARFUM).

Pore Purifying Clay Mask

Deep cleansing and refining treatment for a smooth, polished complexion

F R E Q U E N T L Y A S K E D Q U E S T I O N S

1 What makes this product black?

The Freshwater Silt and Black Iron Oxides in Pore Purifying Clay Mask contribute to the black hue of this product.

2 What is Freshwater Silt?

Derived from Eastern European freshwater lakes, it is composed of sediments that have accumulated over thousands of years and beneficial organic materials, minerals and humic acid that help nourish the skin. Freshwater Silt has been shown to be extremely effective in absorbing toxins from the skin.

3 Will this product irritate my skin?

Not all patients react similarly but this mask has been formulated with multiple ingredients that help counteract irritation that may be associated with exfoliating and deep cleansing properties.

Encapsulated Salicylic Acid releases over time to help minimise irritation. Freshwater Silt and Kaolin Clay naturally soothe and nourish skin. Natural Jojoba Esters, Squalane and Glycerin hydrate the skin to prevent dryness while Cucumber Extract, Oat Kernel Extract and Bisabolol provide skin soothing benefits.

4 What is the delivery system of the Encapsulated Salicylic Acid technology?

This is a double-layered encapsulation of Salicylic Acid in powder form microspheres. Salicylic Acid is contained in sub-micron spheres which are then re-encapsulated into larger microspheres. The mechanism of release happens when the wall of larger microsphere ruptures upon rubbing into the skin in the presence of water. The benefit of this technology is that the encapsulation allows three times more deposition of Salicylic Acid onto the skin compared to free Salicylic Acid while also slowly releasing small amounts of Salicylic Acid onto the skin for a period of 2 hours helping to increase efficacy and minimise irritation.
